STEP 2 Determine Membership Dues

Average U.S. Revenues for ACP Covered Technologies:

The dues contribution for each member is adjusted to account for your overall size and interest in clean power, which is defined as:

- **Three Year Revenue Average:** A three-year trailing average of revenue (2022, 2023, and 2024) – when in doubt, please estimate to the best of your ability
- **ACP Covered Technologies Only:** This only applies to revenue generated from ACP-covered activities of solar, storage, land based wind, offshore wind, transmission, and clean hydrogen
- **U.S. Only:** This only applies to revenue attributable to the U.S. market

Please review the ranges below and select the appropriate ACP Membership Dues Level that matches your company's average U.S. revenue for ACP-covered technologies. **Each revenue range corresponds to a dues contribution level and membership level.**

ACP Membership Levels:

- **Small Business Level:** [Learn More Here](#)
- **Business Level:** [Learn More Here](#)
- **Executive Level:** [Learn More Here](#)

Please contact membership@cleanpower.org if you are interested in joining the Executive Level

Note: While companies may choose a higher membership level, they cannot select a level below where their revenue qualifies them based on the criteria above.
